Description :

PDF-5b508 | The recent economic rise of China and India has attracted a great deal of attention--and justifiably so. Together, the two countries account for one-fifth of the global economy and are projected to represent a full third of the world's income by 2025. Yet, many of the views regarding China and India's market reforms and high growth have been tendentious, exaggerated, or oversimplified. *Awakening ...
