Description :

PDF-13b1b | Traditionally, economists have based their economic predictions on the assumption that humans are super-rational creatures, using the information we are given efficiently and generally making selfish decisions. Economists also assume that we're doing the very best we can possibly do--not only for today, but over our whole lifetimes too. The study of behavioral economics is revealing that our lives... *Behavioural Economics: A Very Short Introduction (Very Short Introductions)*
