Description :

PDF-fb3d6 | Scientists have devised a new term to explain the turmoil caused by climate change: the end of stationarity. It means that our baselines for rainfall, water flow, temperature, and extreme weather are no longer relevant?that making predictions based on past experience is no longer possible. But climate change has upended baselines in the financial world, too, disrupting the global economy in ways... *The End of Stationarity: Searching for the New Normal in the Age of Carbon Shock*
