Description :

PDF-68730 | Hard-hitting recommendations for what must be done to manage global natural capital and reverse environmental destruction Natural capital is what nature provides to us for free. Renewables—like species—keep on coming, provided we do not drive them towards extinction. Non-renewables—like oil and gas—can only be used once. Together, they are the foundation that ensures our survival and well-... *Natural Capital: Valuing the Planet*
