Description :

PDF-82fad | Long considered an overpopulated, repressive, backward country, China has in the last decade entered the small circle of advanced industrial nations. Economic reform, more than any other factor, is responsible for this progress, maintains William H. Overholt in this provocative book. In the 1980s, embracing capitalism to an increasing degree, China's economy grew at a rate of 9.5 percent. In 1992 ... *The Rise of China: How Economic Reform is Creating a New Superpower*
